Trusted by industry for more than 35 years!

BETTER PREPARATION PROVIDES LASTING VALUE

We approach each project with the aim of giving your equipment longer life. That starts with the right surface preparation.

Our preparation methods are selected to create the optimal surfaces for coating or lining, while meeting environmental or other considerations of the project site.

Surface Preparation Options Include:

- Dry or Wet Abrasive Blasting
- Hydro Blasting
- Soda, Dry Ice, Sponge and Vapor Blasting
- Pressure Washing

- NACE CIP - 1, 2 & 3

“ With our NACE certifications you have the assurance that you can do what you do best and Coast to Coast will handle the rest. ”
